2. This program is mentee-driven, and mentees are expected to take initiative to drive the mentoring relationship and be responsible for their own career development and planning. Mentee set their own goals and should remain open with their mentors about their goals, expectations, challenges and concerns. Mentees should also be receptive to constructive criticism and ask for it from their mentors.

3. Mentees must stay accessible, committed and engaged during the length of the program. Program Coordinators will provide support by checking in with each mentor/mentee pair over the course of the program.

4. Mentees are required to participate in the program's Opening Ceremony on October 16, 2021 and Closing Ceremony in February 2022. Due to COVID-19, we are anticipating the Opening and Closing Ceremonies to be held in a virtual setting, however, we are also planning in-person events depending CDC and local guidelines on events and social gatherings. Mentees are encouraged to attend all planned events, webinars and activities created for the program.

5. Mentees are required to complete pre- and post- program survey questionnaires.

I understand and agree with the above expectations. (Sign name below) \*
